Re: Margarita Mariampillai

To Whom It May Concern:

This letter is to verify that Margarita Mariampillai was employed by IPONWEB in Moscow, Russia in Supply Business Unit, wSSP group team as a part-time Intern from August, 2018 to September, 2018 and as a Junior Technical Project Manager from September, 2018 to July, 2019.

Margarita was part of delivery team for some of strategic projects for IPONWEB as well as product initiatives helping the company to enhance own solutions. Margarita learned very quickly, and with high attentiveness to details helped to organise delivery process, structure deploy procedures which allowed to develop and release new features smoothly and keep the client highly satisfied.

While working on project and product documentation Margarita showed good level of language and technical writing skills. She also gained some knowledge about the industry (AdTech & RTB) and the ability to make own decisions on small-scale technical solutions which depend on industry. Technical skills (Linux console, understanding code, Google BQ) allowed her to make investigations and analytics tasks at a good speed.

If any further information is needed, please contact me.

Sincerely,

Agata Gubanova  
PM Team Lead
